D.O.B: 10/06/2004

Gender: Male

Marital Status: Single

Nationality: India

SUMMARY

I am a recent BCA graduate with knowledge in HTML5, CSS, JavaScript, Python, Django, Bootstrap, and MySQL. As a fresher, I do not have industry experience but I have learned these skills through my projects, practice, and self-study. I enjoy creating websites that are responsive, user-friendly, and connected to databases. I am a quick learner, hardworking, and eager to apply my skills in a real work environment. I am currently looking for an internship or entry-level opportunity where I can improve my skills, gain practical experience, and contribute to team success.

EDUCATION

Lokmanya College Of Computer Application - BCA
(Computer Science / Software Developer)
Ahmedabad, Gujarat.

June 2022 - April 2025

SOFT SKILLS

- Adaptability
- Attention to detail
- Ability to work under pressure
- Initiative
- Resilience to take feedback positively
- Proactiveness

PROJECTS

PROJECT ON TILES SELLING

- FEATURES
- Frontend : HTML5, CSS, JAVASCRIPT
- Backend : PYTHON WITH DJANGO, MYSQL

- SUMMARY

Developed a Tiles Selling Website using HTML5, CSS3, JavaScript, Python (Django), Bootstrap, and MySQL. The platform allows customers to browse various types of tiles, including ceramic, porcelain, glass, and other options, and view them by categories. Customers can search for specific tiles, add products to a shopping cart, and place orders with available discounts. The website also supports customer feedback and provides an interactive and user-friendly experience. The front-end is fully responsive, ensuring smooth navigation on desktops and mobile devices, while the back-end built with Django handles user authentication, order management, and product management. MySQL database integration stores product details, user accounts, orders, and feedback securely. Additional features, including an admin panel for managing products, categories, and customer orders, make this a complete full-stack e-commerce application, demonstrating skills in web development, database management, and real-world application design.

PORTFOLIO WEBSITE

FEATURES

- HTML5
- CSS
- JAVASCRIPT

SUMMARY

Developed a personal portfolio website using HTML5, CSS3, and JavaScript to showcase my skills, projects, and professional information. The website includes sections such as Home, About, Services, and Contact, providing a clear and organized overview. Integrated social media links like Instagram and LinkedIn, allowing visitors to connect with me professionally. Added features such as downloadable resume and links to my completed projects, making it easy for employers or clients to review my work. The website is fully responsive and interactive, ensuring an optimal experience on both desktop and mobile devices. This project demonstrates my front-end development skills, creativity, and ability to present information in a professional manner.
